Visitor Factsheet - Further Information

The data in this factsheet refers to visitors who have spent at least one night in the City of Albany Local Government Area (LGA).

Important Note

All data is sourced from Tourism Research Australia's National and International Visitor Surveys (NVS and IVS).

To increase the sample size and hence improve the reliability of the data, visitor and nights estimates in this document are based on an average of two calendar years. Spend estimates are based on an average of four calendar years as per TRA reporting.

The demographics and trip details for domestic visitors show comparisons between 2021+22 (current) and 2018+19 (pre-COVID). Due to the reduced number of international visitors since 2019, only 2018/19 has been provided for international visitors. It is hoped that in future revisions of this factsheet, it will be possible to compare international visitor demographics and trip details with pre-COVID.

It is recommended by Tourism WA that the visitation statistics in this fact sheet are used in conjunction with other information sources that you have access to. This might include population statistics from the Australian Bureau of Statistics, feedback from local operators, information from local Visitor Centres, data from local councils etc.

Methodology and definition changes are made to both the IVS and the NVS from time to time. As such, estimates in this factsheet are not comparable to previous factsheets. For further information, see [NVS Methodology](#) or [IVS Methodology](#) on Tourism Research Australia's website and the [Changing Visitor Spend](#) factsheet on Tourism WA's website.
